Dr. Rex Gantenbein, University of Wyoming (Associate Project Coordinator)  
Larry Biggio, Wyoming Health Information Organization

*b. Provide a complete address for postal delivery and the telephone, fax, and e-mail address for the responsible administrative official.*

E-mail: dyates4@uwyo.edu

*c. Identify the organization that is legally and financially responsible for the conduct of activities supported by the award.*

University of Wyoming

*d. Explain how project is being coordinated throughout the state or region.*

A non-competing continuation application for the HRSA ORHP Rural Health Care Network Development grant to the University of Wyoming was submitted in December 2008. If the continuation is approved, the project coordinator hired in 2008 will continue to work on the project, and an additional half-time person will be hired on the project to provide fiscal management and additional coordination.

**2. Identify all health care facilities included in the network.**

See attachment 1 for a list of facilities in the state that have filed Letters of Agency with the project as of 1/30/09. Five additional facilities have been added since the October report, and we are hoping to recruit one or two more before submitting the RFP.

**3. Network Narrative.**

At this time, the WyNETTE Request for Proposal is under informal review by USAC. We hope to post the revised RFP the first week of February 2009.

**4. List of Connected Health Care Providers.**

At this time, no providers have been connected.

**5. Identify the following non-recurring and recurring costs, where applicable, shown both as budgeted and actually incurred for the applicable quarter and funding year to-date.**

No costs were budgeted or incurred for the current quarter.

**6. Describe how costs have been apportioned and the sources of the funds to pay them.**

At this time, no costs have been apportioned. We have received \$115,000 in matching funds. The remaining matching funds from the Wyoming Association of Mental Health and Substance Abuse Centers have not yet been received; however, we have sufficient matching funds to cover the 15% costs for the current fiscal year.

**7. Identify any technical or non-technical requirements or procedures necessary for ineligible entities to connect to the participant's network.**

**Federal Communications Commission Rural Health Care Pilot Program  
Wyoming Network for Telehealth (WyNETTE) Quarterly Data Report  
30 January 2009**

We have identified 3 ineligible entities that wish to connect to the network. We will design procedures to connect these entities once the RFP has been submitted and a vendor selected.

*8. Provide an update on the project management plan, detailing:*

*a. The project's current leadership and management structure and any changes to the management structure since the last data report.*

The operating charter for the network is still under review by the interim board. No changes to the board have been made.

*b. The project schedule.*

The interim board has approved the following project schedule. Deadlines after March 2009 are subject to negotiation with the selected vendor.

Explain how the selected participants coordinated in the use of their health care networks with the Department of Health and Human Services (HHS) and, in particular, with its Centers for Disease Control and Prevention (CDC) in instances of national, regional, or local public health emergencies (e.g., pandemics, bioterrorism). In such instances, where feasible, explain how selected participants provided access to their supported networks to HHS, including CDC, and other public health officials.*
